

**Our Renewability
Mantra is to include
3 E's of sustainability**

▶ **We Offer:**

- Biodegradable Plastics
- Compostable Plastics
- Durable Bio-based Plastics
- Sustainable Bio-Composites

▶ **Our Core Expertise:**

- Bio-Based Materials
- Biotechnology
- Polymers
- Rheology
- Carbon Footprint Reduction

About us

SWANCA Biomaterials Ltd.

is a renewable materials company specializing in value-addition to by-products and co-products of forestry, agricultural, biofuel industries. Our bio-based materials provide better performance along with improved ecological foot-print often without cost penalty.

Our patented and licensed processes has led to introduction of wide range of materials that can be used in a number of industries.
